ANDERSON COUNTY, TEXAS

Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds to
the Statement of Activities

For the Year Ended December 31, 2019

Net change in fund balances - total governmental funds:		\$ (1,796,862)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period.		
Expenditures for capital assets	4,685,493	
Less: current year depreciation	<u>(3,621,092)</u>	1,064,401
Governmental funds report the entire net sales price (proceeds) from sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain on the sale of the assets. Thus, the change in net position differs from the change in fund balance by the cost of the asset sold.		
		(1,386,355)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Grants	593	
Property taxes	(54,380)	
Court fines	<u>75,319</u>	21,532
The issuance of long-term debt (e.g., certificates of obligation, leases) provides current financial resources to governmental funds, while repayment of the principal of long-term debt is an expenditure in the governmental funds. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Repayment of long-term liabilities	2,559,284	
Issuance of bonds	-	
Premium on issue of debt	-

ANDERSON COUNTY, TEXAS

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the County reflected in the accompanying financial statements conform to the accounting principles generally accepted in the United States of America applicable to state and local governments. Accounting principles generally accepted in the United States of America for local governments are those promulgated by the Governmental Accounting Standards Board (GASB) in Governmental Accounting and Financial Reporting Standards. The most significant accounting and reporting policies of the County are described in the following notes to the financial statements.

A. Reporting Entity

Anderson County, Texas was created in 1846 with Palestine as the County seat. The County is governed by an elected Commissioners Court consisting of four precinct commissioners and the County Judge. The County provides the following services as authorized by the statutes of the State of Texas: general government (e.g., tax collection), judicial (e.g., courts, juries, district attorney, etc.), public safety (e.g., sheriff, jail, etc.), roads and bridges and social services (e.g., assistance to indigents).

A financial reporting entity consists of the primary government and its component units. Component units are legally separate organization for which the elected officials of the County are financially accountable, or the relationship to the County is such that exclusion would cause the County's financial statements to be misleading or incomplete. Blended component units, although legally separate entities, are in substance, part of the County's operations and so data from these units are combined with data of the County. Each discretely presented component unit on the other hand, is reported in a separate column under component unit on the government-wide statements to emphasize that is legally separate from the primary government.

The County had no component units during the fiscal year ended December 31, 2019.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are the elimination of interfund services provided and used that would distort the direct costs and program revenues reported for the various functions concerned. *Governmental activities* are supported by taxes, intergovernmental revenues and other non-exchange transactions.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, the proprietary fund, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds include Special Revenue and Debt Service Funds. The combined amounts of these funds are reflected in a single column in the fund Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances. Detailed statements for nonmajor funds are presented within combining and individual fund statements and schedules.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds have no measurement focus but utilize the *accrual basis of accounting* for reporting their assets and liabilities.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be *available* when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenue to be available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, grants, fines and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County.

The County reports the following major governmental funds:

The **General Fund** is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Capital Projects Fund** is used to account for the resources used for the construction and acquisition of capital facilities by the County.

The **Farm to Market & Lateral Roads Fund** is used to account for all property taxes collected pursuant to Transportation Code 256.054 for construction and maintenance of farm to market and lateral roads, for flood control purposes, or for both as determined by Commissioners County.

Additionally, the County reports the following fund types:

The **Special Revenue Funds** are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

The **Debt Service Fund** accounts for the resources accumulated and payments made for principal and interest on general long-term debt associated with the acquisition and/or construction of facilities and equipment for the County.

The **Internal Service Fund**, commonly known as the Self-Insurance Fund, is used to account for insurance coverage and administrative services provided to other departments or agencies of the County. This fund is funded by quasi-external transfers from other funds and charges to employees for extended benefits at their option. Charges are determined on a cost-reimbursement basis.

Agency Funds are used to account for situations where the County's role is strictly custodial in nature. These funds are held for various reasons being legal, contractual, or operational. Example of this include times where the courts are required to hold funds in trust by the County, the tax office collects funds on behalf of local governments and the state, and the Sheriff collects funds on behalf of inmates. As a result, all assets reported in an Agency Fund are offset by a liability to the party or entity whose behalf the assets are held.

Amounts reported as *program revenues* include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenue. Likewise, general revenue includes all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's Internal Service Fund are charges to participants for services. Operating expenses for the Internal Service Fund include the cost of services and administrative expenses. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Cash and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the County to invest in bank certificates of deposits, obligations of the United States or its agencies, obligations of the State of Texas, obligations of other political subdivisions having at least an "A" credit rating, commercial paper, repurchase agreements and local government investment pools.

Investments for the County are reported at fair value, except for the position in investment pools. The County's investments in these pools are reported at the net asset value per share (which approximates fair value) even though they are calculated using the amortized cost method.

Time deposits of all funds are stated at cost, which approximates fair value.

All investment income is recognized as revenue in the appropriate fund's statement of activity and/or statement of revenues, expenditures and changes in fund balance.

For purposes of the statement of cash flows, proprietary fund types consider all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds. Interfund activity reflected in "due to" or "due from" other funds is eliminated in the government-wide statements.

The Anderson County Tax Assessor/Collector collects property taxes for the County. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and are due and payable on or before January 31st of the following year. Property tax receivables are shown net of an allowance for uncollectible amounts.

Accounts receivables from other governments include amounts due from grantor agencies for approved grants for specific programs and reimbursements for services performed by the County. Program grants are recorded as receivables and revenues at the time all eligibility requirements established by the provider have been met.

Reimbursements for services performed are recorded as receivables and revenues when they are earned. Included are fines and costs assessed by court action and billable services for certain contracts. Revenues received in advance of the costs being incurred are recorded as unearned revenue in the fund statements. Receivables are shown net of an allowance for uncollectibles.

Prepaid Items

Payments made to vendors for items or services for a future period beyond December 31, are recorded as prepaid items. The County uses the consumption method to account for prepaid items. This means that expenditures are recognized proportionately over the periods that services are provided. The fund balances in the affected funds have been classified as nonspendable for amounts equal to the prepayments since these amounts are not available for appropriation.

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure (e.g. roads, bridges and similar items), are reported in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition cost, which is the price that would be paid to acquire an asset with equivalent service potential at the acquisition date.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	20-50
Improvements	5-50
Equipment	5-20
Infrastructure (roads and bridges)	20-50

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expenses, information about the Fiduciary Net Position of the Texas County and District Retirement System (TCDRS) and additions to/deductions from TCDRS's Fiduciary Net Position have been determined on the same basis as they are reported by TCDRS. For this purpose, plan contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Compensated Absences

County employees earn vacation in varying amounts and earn sick leave at the rate of one day per month. Employees do not earn vacation leave until the completion of one year of service for the County. Employees earn vacation based on the following table:

<u>Years of Employment</u>	<u>Vacation Days</u>
1-2 years	80 hours per year
3-9 years	96 hours per year
10-19 years	120 hours per year
20+ years	160 hours per year

Vacation leave may not be accrued in excess of the maximum amount of 200 hours. Also, in accordance with the Fair Labor Standards Act as it applies to local governments, non-exempt County employees are granted compensatory time for hours worked beyond their regular working hours. Vacation and compensatory time is paid upon termination of employment. Accrued sick time is not paid out per the policy of the Commissioners Court.

The County has recognized a liability for accumulated vacation leave where the employees' rights to receive benefits are attributable to services already rendered, and it is probable that the County will compensate the employees through either paid time off or cash payments at termination.

All vacation pay and compensatory time is accrued when incurred in the government-wide financial statements. A liability for these payments is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has the following items that qualify for reporting in this category:

- *Deferred losses on debt refundings in the government-wide Statement of Net Position* – A deferred loss on a bond refunding results when the reacquisition price of the refunded debt exceeds the carrying value. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- *Difference in projected and actual earnings on pension assets* – This difference is deferred and amortized over a closed five year period.
- *Difference in expected and actual pension experience* – This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- *Pension contributions after the measurement date* – These contributions are deferred and recognized in the following fiscal year.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position or fund balance that applies to a future period(s) and, therefore, will not be recognized as an inflow of resources (revenue) until that time. The County has the following items that qualify for reporting in this category.

- Under the modified accrual basis of accounting, unavailable revenue is reported in the governmental funds balance sheet as a deferred inflow of resources.
- Property taxes collected before the period for which they were levied.

In addition, the County has deferred inflows of resources which are required to be reported on the Statements of Net Position under the full accrual basis of accounting. Deferred inflows of resources reported in the Statements of Net Position are as follows:

- *Differences between expected and actual economic experience for the County's pension* – This difference is deferred and recognized over the estimated average remaining lives of all members
- *Changes of economic and demographic actuarial assumptions or of other inputs included in determining the pension liability* – These effects on the total pension liability are deferred and amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Nonspendable:** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Nonspendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- **Restricted:** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- **Committed:** This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by ordinance of the Commissioners Court, the County's highest level of decision making authority. These amounts cannot be used for any other purpose unless the Commissioners Court removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.
- **Assigned:** This classification includes amounts that are constrained by the County's intent to be used for a specific purpose but are neither restricted nor committed. This intent is determined by the Commissioners Court or County Auditor.
- **Unassigned:** This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

The County will strive to maintain a minimum unassigned fund balance in its General Fund ranging from 18 to 25% of the subsequent year's budgeted expenditures and outgoing

transfers. This minimum fund balance is to project against cash flow shortfalls related to timing of projected revenue receipts.

If it is determined that the County is below this minimum established fund balance level, the governing body will be informed of this condition and take necessary budgetary steps to bring fund balance into compliance with this policy through budgetary actions.

Net Position

Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Estimated

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of financial statements and the reported amounts of revenue and expenses during the reporting period. Actual amounts could differ from those estimated.

Deficit Fund Equity

As of December 31, 2019, the District Attorney Hot Check Fund, Court Reporter Services Fund, and VAWA/VOCA Grant Fund had a negative fund balance of \$2,444, \$7,875, and \$2,198 respectively. The fund deficit is the result of revenues falling short of levels expected when budget was approved. The year-end deficit will be rectified by providing supplemental funding from the General Fund by the County.

New Accounting Principles

Significant new accounting standards not yet implemented by the County include the following:

GASB Statement No. 83, "*Certain Asset Retirement Obligations*" is effective for reporting period beginning after June 15, 2018. This statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this statement.

GASB Statement No. 84, "*Fiduciary Activities*" is effective for reporting periods beginning after December 15, 2018. The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

GASB Statement No. 87, "*Leases*" is effective for reporting periods beginning after December 15, 2019. The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments.

2. DETAILED NOTES ON ALL FUNDS

Cash and Investments

As of December 31, 2019 , the County had the following investment:

<u>Investment Type</u>	<u>Net Asset Value</u>	<u>Weighted Average Maturity (Days)</u>
TexPool	\$ <u>12,063,366</u>	36

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the County to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the County to invest in (1) obligations of the U. S. Treasury, certain U. S. agencies, and the State of Texas; (2) certificates of deposit; (3) certain municipal securities; (4) money market savings accounts; (5) repurchase agreements; (6) bankers acceptances; (7) Mutual Funds; (8) investment pools; (9) guaranteed investment contracts; and (10) common trust funds. The Act also requires the County to have independent auditors perform tests procedures related to investment practices as provide by the Act. The County is in substantial compliance with the requirements of the Act and with local policies.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the County’s deposits may not be returned to it. As of December 31, 2019, the carrying value of the County’s deposit balance was collateralized with securities held by the pledging financial institution or by FDIC insurance.

Credit Risk. It is the County’s policy to limit its investments to investment types with an investment quality rating not less than A or its equivalent by a nationally recognized statistical rating organization. TexPool was rated AAAM by Standard & Poor’s Investors Service.

Property Taxes and Other Receivables

Property is appraised and a lien on such property becomes enforceable as of January 1, subject to certain procedures for rendition, appraisal, appraisal review and judicial review. Property taxes are levied by October 1 of the year in which assessed, or as soon thereafter as practicable. Taxes are due and payable, without penalty and interest, from October 1 of the year in which levied on or before January 31 of the following year. Taxes become delinquent February 1 of each year and are subject to simple interest and penalties.

The County's taxes on real property represent a lien against such property until paid. The County may foreclose on real property upon which it has a lien for unpaid taxes. The exception is homestead property belonging to persons 65 years of age or older who file for deferral or abatement. Delinquent taxes on property not otherwise collected are generally paid when there is a sale or transfer of the title of the property.

Property taxes are collected for the General, Capital Projects, Debt Service, and Farm to Market and Lateral Road funds. This distribution is based on the tax rate established for each fund by order of the Commissioners Court for the tax year for which collections are made.

Receivables as of year-end for the County's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Capital Projects</u>	<u>Farm to Market & Lateral Roads</u>	<u>Other Governmental Funds</u>	<u>Total</u>

During the year, transfers were used to move General Fund resources to provide annual subsidies to Grant Funds, Juvenile Probation Fund, Security Fund, and Family Protection Fund.

Long-term Debt

General Obligation Bonds

The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities or equipment.

On July 15, 2012, the County issued \$8,660,000 of general obligation refunding bonds to provide resources to purchase U.S. Government State and Local Government Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$5,390,000 for the General Obligation Bonds, Series 2005 and \$2,735,000 for the Certificates of Obligations, Series 2003. As of December 31, 2018, the refunded debt has been paid and the County has no defeased debt outstanding.

In February 2017, the County issued \$6,450,000 of unlimited tax road bonds with an interest rate of 4%. These bonds were issued for the construction, maintenance, and operation of roads and turnpikes and professional services. Principal payments begin February 15, 2024 and are payable in annual installments of \$350,000 to \$590,000 through February 15, 2037.

In June 2018, the County issued \$6,635,000 of unlimited tax road bonds with an interest rate of 4%. These bonds were also issued for the construction, maintenance, and operation of roads and turnpikes and professional services. Principal payments begin February 15, 2024 and are payable in annual installments of \$330,000 to \$575,000 through February 15, 2038.

General obligation bonds are direct obligations and pledge the full faith and credit of the County.

\$6,635,000 Unlimited Tax Road Bonds, Series 2018	4%	6,635,000

Notes Payable

The County's direct borrowings (notes payable) related to governmental activities are secured with equipment as collateral. On September 20th, 2019, the County borrowed \$137,569 with the interest rate of 2.60% for the purchase of equipment.

Capital Leases

The County's direct borrowings (capital lease) related to governmental activities are secured with equipment as collateral. On September 1st, 2019, the County entered into a capital lease contract for the purpose of leasing Road and Bridge equipment.

Lines of Credit

The County does not have any unused lines of credit.

The compensated absences, net pension liability, and OPEB liabilities attributable to the governmental activities are primarily liquidated by the General Fund.

Risk Management

The County is a member of the Texas Association of Counties Risk Pool (“Pool”). The Pool was created for the purpose of providing coverage against risks which are inherent in operating a political subdivision. The County pays annual premiums to the Pool for unemployment and workers’ compensation coverage. The County’s agreement with the Pool provides that the Pool will be self-sustaining through member premiums and will provide coverage through commercial reinsurance contracts. The Pool agrees to handle all unemployment and workers’ compensation claims and provide any defense as is necessary. The Pool makes available to the County loss control services to assist the County in following a plan of loss control that may result in reduced losses. The County agrees that it will cooperate in instituting any and all reasonable loss control recommendations made by the Pool. The County also carries commercial insurance on all other risks of loss, including liability, property, and accident insurance.

The County has experienced no significant reductions in coverage through the Pool over the past year. There have been no insurance settlements exceeding Pool and commercial coverage for any of the past three years.

Defined Benefit Pension Plan

Plan Description. The County participates in a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (“TCDRS”). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent, multiple-employer, public employee retirement system consisting of nontraditional defined benefit pension plans. TCDRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tcdrs.org.

All full and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year. Employees in a temporary position are not eligible for membership.

Benefits Provided. TCDRS provides retirement, disability and survivor benefits for all eligible employees. Benefit terms are established by the TCDRS Act. The benefit terms may be amended as of January 1, each year, but must remain in conformity with the Act.

Members can retire at age 60 and above with 8 or more years of service, with 20 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after eight years of service, but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee’s contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer’s commitment to contribute. By law, employee accounts earn 7% interest. At retirement, death or disability, the benefit is calculated by converting the sum of the employee’s accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Employees covered by benefit terms

At the December 31, 2018, valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	184
Inactive employees entitled to but not yet receiving benefits	381
Active employees	263
	<hr/>
	828
	<hr/> <hr/>

Contributions. The contribution rates for employees in TCDRS are either 4%, 5%, 6%, or 7% of employee gross earnings, as adopted by the employer’s governing body. Participating employers are required to contribute at actuarially determined rates to ensure adequate funding for each employer’s plan. Under the state law governing TCDRS, the contribution rate for each entity is determined annually by the actuary and approved by the TCDRS Board of Trustees. The replacement life entry age actuarial cost method is used in determining the contribution rate. The actuarially determined rate is the estimated amount necessary to fund benefits in an orderly

manner for each participate over his or her career so that sufficient funds are accumulated by the time benefit payments begin, with an additional amount to finance any unfunded accrued liability.

Employees for the County were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the County were 12.51% and 12.65% in calendar years 2018 and 2019, respectively. The County's contributions to TCDRS for the year ended December 31, 2019, were \$1,272,564, and were equal to the required contributions.

Net Pension Liability. The County's Net Pension Liability (NPL) was measured as of December 31, 2018, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The Total Pension Liability in the December 31, 2018, actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.75% per year
Overall payroll growth	3.25% per year
Investment rate of return	8.0%, net of pension plan investment expense, including inflation

Mortality rates for active members, retirees, and beneficiaries were based on the following:

Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Table for female, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service retirees, beneficiaries and non-depositing members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale for 2014.

The actuarial assumptions that determined the total pension liability as of December 31, 2018, were based on the results of an actuarial experience study for the period January 1, 2013 through December 31, 2016, except for mortality assumptions. Mortality assumptions were updated for the 2018 valuation to reflect projected improvements.

The long-term expected rate of return on pension plan investments is 8.1%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TCDRS Board of Trustees. The application of the investment return assumption was changed for

purposes of determining plan liabilities in the 2018 actuarial valuation. All plan liabilities are now valued using an 8% discount rate. Previously, some liabilities were valued using a 7% discount rate and others were valued using a 9% discount rate.

The long-term expected rate of return on TCDRS is determined by adding inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information below are based on January 2019 information for a 10 year time horizon. The valuation assumption for long-term expected return is reassessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2017. The target allocation and best estimates of geometric real rates return for each major assets class are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 8.1%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Postemployment Benefits Other than Pension Benefits (OPEB)

1. Plan Description

The County's OPEB provides health benefits to eligible retired employees of the County and is a single employer plan administered by the County. Separately issued financial statements are not available for the plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75. Anderson County Commissioners Court has the authority to establish and amend the benefits of the plan.

2. Plan Participants

Members are eligible for retirement with TCDRS at age 60 with 8 years of service, or at any age with 20 years of service, or when age plus years of service equals 75.

3. Health Care Benefits Eligibility Conditions

Health insurance benefits are provided to eligible retirees of the County in accordance with policies and procedures approved by Commissioners Court. All employees who were hired prior to January 1, 2012, will have the option of retaining the County's group health insurance coverage upon their retirement. If they are vested and eligible for retirement with the Texas County and District Retirement System ("TCDRS") at the time they leave employment, they will be required to make the same employee contribution as is required of active employees with similar dependent elections. Employees who are vested in TCDRS and who are hired subsequent to January 1, 2012, will have the option of retaining the County's group health insurance coverage upon their retirement, provided that the retired employee pays 100% of the required monthly premium for their coverage elections.

All group insurance will cease when retired employees reach age 65, provided however, that if the retired employee's spouse has not reached the age of 65 and/or the retired employee's children have not reached the age of 26, the spouse and/or children will be eligible for group health coverage until they reach the age of 65 and 26 respectively. The County, annually, will stipulate the required contribution from the retired employee needed to extend the coverage of their eligible dependents after the retired employee has reached age 65.

4. Employees Covered by Benefits Terms

At December 31, 2019, the following employees were covered by the benefit terms:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	22
Active Plan Members	<u>178</u>
Total Plan Members	200

5. Total OPEB Liability

The County's total OPEB liability of \$4,325,277 was measured as of December 31, 2019, and was determined by an actuarial valuation as of that date.

Actuarial assumptions and other inputs

The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumption and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.00%
Salary Increases	3.5%
Discount Rate	4.10% as of December 31, 2019
Healthcare Cost Trend Rates	Level 5.00%
Mortality	RPH-2014 Total Table with Projection MP-2018
Demographic Assumptions	The retirement rates were developed from the assumption used in the 2017 actuarial report for the TCDRS retirement plans.
Participation Rates	90% of future retirees who are eligible for a County subsidy were assumed to receive retiree health care benefits through the County. Alternatively, only 10% of retirees who are not eligible for benefits were assumed to elect coverage.

Changes in the Total OPEB Liability

	Total OPEB
Balance as of 01/01/2019	\$ 4,368,252

Commitments and Contingencies

- a. Grants – The County has received Federal and State financial assistance in the form of grants that are subject to review and audit by the grantor agencies. Such audits could result in requests for reimbursement by the grantor agencies for expenditures disallowed under terms and conditions specified in the grant agreements. In the opinion of County management, such disallowances, if any, will not be significant to the County’s financial position.
- b. Litigation – The evaluation of County management is that any liability to the County relating to lawsuits will not have a material impact on the County’s financial position. Historically, the County has not incurred significant losses from claims or lawsuits which arise during the ordinary course of business.

Subsequent Event

On January 30, 2020, the World Health Organization declared the coronavirus outbreak (COVID-19) a Public Health Emergency of International Concern and on March 10, 2020, declared COVID-19 a pandemic. The impact of COVID-19 could negatively affect the County's operations, suppliers or other vendors, as well as intergovernmental entities and citizens it collects fees from. Subsequent shelter in place orders, labor shortages or other disruptions to the County's operations, or that of its supplies and vendors, may adversely affect the County's ability to provide services to citizens and taxpayers. In addition, the pandemic and its effects could result in a widespread health crisis that may lead to an economic downturn, negatively affecting tax revenues and demand for services. As of the date of this report, the impact of COVID-19 on the County's financial statements or operations cannot be determined. The extent to which COVID-19 may affect the County's results will depend on future developments, which are highly uncertain.

The Commissioners Court approved the issuance of \$5,130,000 Unlimited Tax Road Bonds, Series 2020. These bonds have an interest rate of 4.00% and will mature in December 2040. These bonds will be used for the construction, maintenance, and operation of county roads as well as payment of professional services and costs related to the bonds.
